RESPONSE TO RESTRICTION AND ELECTION OF SPECIES REQUIREMENT

Director of the U.S. Patent and Trademark Office
Washington, D.C. 20231

RECEIVED

DEC 11 2002

Sir:

Technology Center 2600

In reply to the November 8, 2002 Restriction and Election of Species Requirement, Applicants provisionally elect Group I, new claims 28-50, drawn to a magnetic transducer, classified in class 360, subclass 324.11 and Species I, Figure 1-8, with traverse. Applicants respectfully assert that at least claims 28-33 and 47-48 read on Species I. Further, Applicants respectfully assert that independent claims 1 and 21 are generic to all Species I-IV.

It is also respectfully submitted that the subject matter of all the claims 28-55 and Species sufficiently related that a thorough search for the subject matter of any one Group of claims and Species would encompass a search for the subject matter of the remaining claims and Species. Thus, it is respectfully submitted that the search and examination of the entire application could be made without serious burden. See MPEP §803 in which it is stated that "if the search and examination of an entire application can be made without serious burden, the examiner must examine it on the merits, even though it includes claims to independent or distinct inventions" (emphasis added). It is respectfully submitted that this policy should

apply in the present application in order to avoid unnecessary delay and expense to Applicants and duplicative examination by the Patent Office.

Thus, withdrawal of the Restriction and Election of Species Requirement is respectfully requested.

Respectfully submitted,

James A. Oliff
